

Title: Dashboard menu label not positioned at top-left corner after login.

Steps to Reproduce:

1. Go to the login page.
2. Enter valid credentials.
3. Click "Login".
4. Observe the dashboard screen.

Expected Result: Dashboard menu/module should be positioned at the top-left corner of the sidebar for better visibility.

Actual Result: Dashboard menu/module appears lower in the sidebar, not at the top-most position.

Severity: Low

Type: UI Defect
